

GARAGE DOORS

PRODUCT CATALOGUE

BUILT FOR PERFORMANCE. DESIGNED FOR CURB APPEAL.

thedoormaster.ca
905-326-5800

Our garage doors are built with strong, precision-formed sections engineered for **durability** and consistent performance. Each door features **thick panels** with **insulation** to improve **energy efficiency**, **reduce noise**, and add **structural strength**. A high-quality **steel skin** delivers long-lasting protection while maintaining a clean, attractive appearance.

Carefully designed joints provide **smooth operation**, tight panel alignment, and a refined finished look. **Reinforced end caps** add stability and help protect against everyday wear and impact. Available in **multiple colours**, these doors offer **dependable performance** with style options suitable for any home or business.

MAIN FEATURES

Sectional Thickness: 2"

Insulation: Foamed-in-place polyurethane insulation with R-VALUE 18

Steel Skin: 26 Gauge exterior and interior

Joint Design (Thermal Break): Tongue and groove section with rubber seal

End Caps: 20 Gauge galvanized steel

Colours: White, sandstone, brown, dark brown, charcoal, matte black, black, and matte navy

Energy Efficiency: Insulated panels reduce heat loss and improve efficiency
